

Amendment to the Specification

Please amend the first page of the specification to include the following, underlined priority reference, directly between the invention title and the Field of the Invention as follows:

ELECTRICAL COMPONENT AND METHOD FOR MANUFACTURING
THE SAME

This Divisional Application hereby claims priority under 35 U.S.C. § 119 and § 120 of U.S. Application Number 09/853,050, filed 05/11/2001, which claimed priority of Japanese Application Japan 2000-141687 filed 05/15/2000 in Japan, by the same inventors.

FIELD OF THE INVENTION

The present invention relates to manufacture of electrical component such as a battery or an electrical double layer capacitor.
